**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Original) A method of enabling online banking, the method including the steps of:  
  
providing a banking customer with a form containing information relating to a banking transaction, the form including coded data indicative of an identity of the form and of at least one reference point of the form;  
  
receiving, in a computer system, indicating data from a sensing device regarding the identity of the form and a position of the sensing device relative to the form, the sensing device, when placed in an operative position relative to the form, sensing the indicating data using at least some of the coded data; and  
  
identifying, in the computer system and from the indicating data, at least one parameter relating to the banking transaction.
2. (Original) The method of claim 1 in which said at least one parameter relating to the banking transaction is associated with at least one zone of the form and in which the method includes identifying, in the computer system and from the zone relative to which the sensing device is located, said at least one parameter.
3. (Original) The method of claim 2 which includes  
  
receiving, in the computer system, data regarding movement of the sensing device relative to the form, the sensing device sensing its movement relative to the form using at least some of the coded data; and  
  
identifying, in the computer system and from said movement being at least partially within said at least one zone, said at least one parameter of the banking transaction.
4. (Cancelled)
5. (Cancelled)

Amdt. Dated March 10, 2005  
Response to Office Action of January 27, 2005

5

6. (Withdrawn)

7. (Cancelled)

8. (Currently Amended) The method of ~~any one of claims 2, 4 or 6~~ in which the parameter is an action parameter of the banking transaction, the method including effecting, in the computer system, an operation in respect of the action parameter.

9. (Original) The method of claim 8 in which the action parameter of the banking transaction is selected from the group comprising:

a request for information relating to banking services, an order for checks, a request to stop checks, an application for a new account, an application for a loan, a request for an account history, a request for a withdrawal of funds, a request for a transfer of funds, a request for an account balance, a payment of a bill, and a request for a list of bill payments.

10. (Currently Amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is an option parameter of the banking transaction, the method including identifying, in the computer system, that the banking customer has entered a hand-drawn mark by means of the sensing device and effecting, in the computer system, an operation associated with the option parameter.

11. (Original) The method of claim 10 in which the option parameter is associated with at least one of:

a request for information relating to banking services, an order for checks, a request to stop checks, an application for a new account, an application for a loan, a request for an account history, a request for a withdrawal of funds, a request for a transfer of funds, a request for an account balance, a payment of a bill, a request for a list of bill payments, an account, a currency, and a payee name.

Amdt. Dated March 10, 2005  
Response to Office Action of January 27, 2005

6

12. (Currently Amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is a text parameter of the banking transaction, the method including identifying, in the computer system, that the banking customer has entered handwritten text data by means of the sensing device and effecting, in the computer system, an operation associated with the text parameter.

13. (Original) The method of claim 12 which includes converting, in the computer system, the handwritten text data to computer text.

14. (Original) The method of claim 13 in which the text parameter is associated with at least one of:

a check amount, a payee name, a currency amount, a transfer amount, a payment amount, a payment date, and a check number.

15. (Currently Amended) The method of ~~any one of claims 3, 4 or 7~~ in which the parameter is an authorization parameter of the banking transaction, the method including identifying, in the computer system, that the banking customer has entered a handwritten signature by means of the sensing device and effecting, in the computer system, an operation associated with the authorization parameter.

16. (Original) The method of claim 15 which includes verifying, in the computer system, that the signature is that of the customer.

17. (Original) The method of claim 16 in which the authorization parameter is associated with authorization for at least one of:

access to account information, withdrawal of funds, transfer of funds, payment of a bill, modification of a bill payment, deletion of a bill payment, stopping of checks, and ordering of checks.

18. (Currently Amended) The method of ~~any one of claims 3, 4 or 7~~ in which the

Amdt. Dated March 10, 2005  
Response to Office Action of January 27, 2005

7

parameter is a picture parameter of the banking transaction, the method including identifying, in the computer system, that the banking customer has entered a hand-drawn picture by means of the sensing device and effecting, in the computer system, an operation associated with the picture parameter.

19. (Original) The method of claim 18 in which the picture parameter is associated with a graphic design for a customer's checks.

20. (Currently Amended) The method of ~~any one of claims 1, 4 or 5~~ in which the form contains information relating to at least one of:

information relating to banking services, an order for checks, a request to stop checks, an application for a new account, an application for a loan, a request for an account history, a request for a withdrawal of funds, a request for a transfer of funds, a request for an account balance, a payment of a bill, and a request for a list of bill payments.

21. (Currently Amended) The method of ~~any one of claims 1, 4 or 5~~ which includes printing the form on demand, thereby allowing a sensing device to sense coded data provided on the printed form.

22. (Original) The method of claim 21 which includes printing the form on a surface of a surface-defining means and, at the same time that the form is printed, printing the coded data on the surface.

23. (Original) The method of claim 22 which includes printing the coded data to be substantially invisible in the visible spectrum.

24. (Original) The method of claim 1 or 5 which includes retaining a retrievable record of each form generated, the form being retrievable using its identity as contained in its coded data.

Amdt. Dated March 10, 2005  
Response to Office Action of January 27, 2005

8

25. (Currently Amended) The method of ~~any one of claims 1, 4 or 5~~ which includes distributing a plurality of forms using a mixture of multicast and pointcast communications protocols.

26. (Currently Amended) The method of claim 1 ~~or 4~~ in which the sensing device contains an identification means which imparts a unique identity to the sensing device and identifies it as being associated with a particular banking customer and in which the method includes monitoring, in the computer system, said identity.

27. (Currently Amended) The method of ~~any one of claims 1, 4 or 5~~ which includes providing all required information relating to the banking transaction in the form to eliminate the need for a separate display device.

28. (Currently Amended) The method of any one of claims 1, ~~4 or 5~~ in which the form is printed on multiple pages and in which the method includes binding the pages.

29. (Currently Amended) ~~A system~~ Apparatus for enabling online banking, the system apparatus including

a form containing information relating to a banking transaction, the form including coded data indicative of an identity of the form and of at least one reference point of the form; and

a computer system for receiving indicating data from a sensing device for identifying at least one parameter relating to the banking transaction, the indicating data being indicative of the identity of the form and a position of the sensing device relative to the form, the sensing device sensing the indicating data using at least some of the coded data.

30. (Original) The system of claim 29 in which said at least one parameter relating to the banking transaction is associated with at least one zone of the form.

Amdt. Dated March 10, 2005  
Response to Office Action of January 27, 2005

9

31. (Original) The system of claim 29 which includes the sensing device, the sensing device sensing its movement relative to the form using at least some of the coded data.

32. (Cancelled)

33. (Cancelled)

34. (Cancelled)

35. (Cancelled)

36. (Currently Amended) The ~~system apparatus of any one of claims 29, 32 or 34 in~~ which said at least one parameter of the banking transaction is selected from the group comprising an action parameter of the banking transaction, an option parameter of the banking transaction, a text parameter of the banking transaction, an authorization parameter of the banking transaction, and a picture parameter of the banking transaction.

37. (Currently Amended) The ~~system apparatus of~~ claim 36 in which the action parameter of the banking transaction is selected from the group comprising:

a request for information relating to banking services, an order for checks, a request to stop checks, an application for a new account, an application for a loan, a request for an account history, a request for a withdrawal of funds, a request for a transfer of funds, a request for an account balance, a payment of a bill, and a request for a list of bill payments.

38. (Currently Amended) The ~~system apparatus of~~ claim 36 in which the option parameter is associated with at least one of:

a request for information relating to banking services, an order for checks, a request to stop checks, an application for a new account, an application for a loan, a request for an account history, a request for a withdrawal of funds, a request for a transfer of funds, a

10

request for an account balance, a payment of a bill, a request for a list of bill payments, an account, a currency, and a payee name.

39. (Currently Amended) The ~~system-apparatus~~ of claim 36 in which the text parameter is associated with at least one of:

a check amount, a payee name, a currency amount, a transfer amount, a payment amount, a payment date, and a check number.

40. (Currently Amended) The ~~system-apparatus~~ of claim 36 in which the authorization parameter is associated with authorization for at least one of:

access to account information, withdrawal of funds, transfer of funds, payment of a bill, modification of a bill payment, deletion of a bill payment, stopping of checks, and ordering of checks.

41. (Currently Amended) The ~~system-apparatus~~ of claim 36 in which the picture parameter is associated with a graphic design for a customer's check.

42. (Currently Amended) The ~~system-apparatus~~ of ~~any one of claims 31, 32 or 35~~ in which the sensing device includes a marking nib.

43. (Currently Amended) The ~~system-apparatus~~ of claim 31 ~~or 32~~ in which the sensing device contains an identification means which imparts a unique identity to the sensing device and identifies it as belonging to a particular customer.

44. (Currently Amended) The ~~system-apparatus~~ of ~~any one of claims 29, 32 or 33~~ in which the form is printed on a surface of a surface-defining means and in which the system includes a printer for printing the form on demand.

45. (Currently Amended) The ~~system-apparatus~~ of claim 44 in which the printer prints

Amdt. Dated March 10, 2005  
Response to Office Action of January 27, 2005

11

the coded data at the same time as printing the form on the surface-defining means.

46. (Currently Amended) The ~~system-apparatus~~ of ~~any one of~~ claims 29, 32 ~~or 33~~ in which the coded data is substantially invisible in the visible spectrum.

47. (Currently Amended) The ~~system-apparatus~~ of claim 29 ~~or 33~~ which includes a database for keeping a retrievable record of each form generated, each form being retrievable by using its identity as included in its coded data.

48. (Currently Amended) The ~~system-apparatus~~ of claim 44 in which, to cater for a form printed on multiple pages, the printer includes a binding means for binding the pages.
